Career Objective

My career objectives are to continuously learn and excel in computer science, specializing in MERN stack development and blockchain technology. I aim to contribute to impactful projects, strengthen teamwork skills, and advance in my career. Building a strong professional network and actively participating in open-source initiatives are integral to my growth.

Skills

Java, C++, HTML, CSS, Figma, JavaScript, React, Next.js, Node.js, Firebase, MongoDB, Solidity, WebFlow, Wordpress

Projects

Chat App

MERN Chat App with enables real-time communication, leveraging MongoDB, Express, React, and Node.js facilitates bi-directional communication, allowing users to engage in seamless and instantaneous messaging.

Face Authentication

React Face App utilizes face-api.js and Face API models to detect, recognize, and transform faces in images. It enables facial landmark detection. A user-friendly interface allows for seamless face editing and manipulation, making it a cutting-edge facial recognition solution.

CS Wale - Knowledge Resource Centre

All the necessary information about any computer science course is provided systematically and all paths are discussed. Students need not to go anywhere else to find information about any course.

Text-to-Emoji

This is a React-based website where text is converted to emoji (Cipher Text) and vice versa for authentication and the data is stored in local storage.

Education

Presidency The International School (till 10th)

2018 – 2019 | Bhiwadi, India

RPS public School (11th and 12th)

2020 – 2021 | Dharuhera, India

Bachelor of Engineering in Computer science, Chandigarh University

2021 – 2025 | Mohali, India

Certifications

Introduction to programming through c++, NPTEL

Discrete Mathematics, NPTEL

Introduction to programming in c, NPTEL

Create Ethereum and Blockchain application using Solidity, Infosys Springboard

Achievement

Ideathon, Finished in top 30

Java, 5 star on HackerRank

Problem Solving, 4 star on HackerRank

LeetCode

Solved 250+ questions .

Basketball,

Captain of Under 17 in Rajasthan Cluster event

Experience

Website Handling

Handled university's competition and events website.

Excel

Worked on excel while being part of university's **events coordinator team**.
